# COMPANY HISTORY

The Hill Brush Company Ltd was established in 1922 by two brothers, Fred and Bill Coward. Bill was an avid fisherman, so when thinking of how best to represent their brand, he suggested a 'Salmon' as the logo. Salmon® Hygiene Technology products are now recognised across the globe and have become the benchmark for quality by food and beverage manufacturers around the world.

Family values thrive at the heart of the Hill Brush culture, so it's little wonder that Hill Brush employees span multiple generations, with fathers and sons, mothers and daughters spending much of their working life with the company. With a reputation for excellence and innovation, their revolutionary products gained Royal recognition, with visits from HRH Prince of Wales and HM the Queen, as well as the grant of a Royal Warrant to HM the Queen.

With a portfolio of over 2000 products, distribution partners in over 90 countries and the prospect of new premises in 2016, the Hill Brush passion for continuous development and diversification is as prominent now as it was 93 years ago.

Salmon® Traditional Quality

## TRADITIONAL BRUSHWARE

Salmon® Traditional Quality brushware is made to meet the tough requirements of the farming, building and maintenance industries.

Materials are thoughtfully selected for their unique qualities to create a tool that is suited to the demands of the task at hand.

We choose:

- Bahia for strength
- Sherbro for durability
- Coco for softness
- Polypropylene for longevity.

## BOXED TO GO

This range arrives barcoded and ready to be displayed. Attractively presented in a custom box, these good quality, manufactured brushes come in a range of colours and are easily assembled with threaded handles.

- Boxed brushes, complete with threaded handles
- Attractive coloured polypropylene options
- The perfect solution for transporting large quantities of brushes.
- Lower carbon footprint than custom brushes with reusable handles.

### Stiff Deck Scrub including Handle 824

**Ideal for:** Wet; household/industrial.  
Size: 229 x 61mm

### Stiff Replacement Head for 824 D82

Union fill. Wooden stock.  
**Ideal for:** Wet; household/industrial.  
**Suitable Handle:** TH48/1  
Size: 229 x 61mm

### Stiff RIO Deck Scrub Including Handle BC77

Multi-coloured polypropylene fill.  
25 x BC7 + TH48/1  
Size: 229 x 61mm

### Stiff Replacement Head for BC77 BC7

Multi-coloured polypropylene fill.  
Wooden stock.  
**Suitable Handle:** TH48/1  
Size: 229 x 61mm

### Medium Sweeping Broom Including Handle 234

Bassine fill. 20 x 23 + TH48/1.  
**Ideal for:** Light debris, dust; most surfaces.  
Size: 254 x 64mm

### Medium Replacement Head for 234 23

Bassine fill. Skived wooden stock.  
**Ideal for:** Light debris, dust; most surfaces.  
**Suitable Handle:** TH48/1  
Size: 254 x 64mm

### Soft Sweeping Broom Including Handle 174

Natural coco fill. 20 x 17 + TH48/1.  
**Ideal for:** Light particles, dust in dry areas.  
Size: 254 x 64mm

### Soft Replacement Head for 174 17

Natural coco fill. Wooden stock.  
**Ideal for:** Light particles, dust in dry areas.  
**Suitable Handle:** TH48/1  
Size: 254 x 64mm

### Soft Sweeping Broom Including Handle 1044

Black coco fill. 20 x broom heads + TH48/1.  
**Ideal for:** Dust in large dry areas.  
Size: 305 x 73mm

### Medium RIO Sweeping Broom including Handle BC2

Multi-coloured polypropylene fill.  
20 x broom heads + TH48/1.  
Size: 276 x 66mm

### Soft Sweeping Broom Including Handle S104

Blue PVC fill. 20 x S/10 + TH48/1  
**Ideal for:** Laminate/tiles/wooden flooring.  
Size: 267 x 67mm

### Soft Replacement Head for S104 S/10

Blue PVC fill. Lacquered skived wooden stock.  
**Ideal for:** Laminate/tiles/wooden flooring.  
**Suitable Handle:** TH48/1.  
Size: 267 x 67mm

## Sponge Mop

Designed for use with our sponge mop heads, this 1270mm metal frame comes complete with white plastic fittings and coloured hand grips. The sponge mop heads slot easily into position and a sturdy wringer mechanism eliminates water from them. This product is ideal for floor cleaning and for soaking up excess water in small areas.

### Sponge Mop Frame SPNG/FRM1

Metal frame with white plastic fittings. Coloured caps.

**Ideal for:** Wet mopping tiled, non-food contact areas; commercial/household.  
Size: 1380 x 315mm

### Sponge Mop Head SPONGE1

Cellulose. Do not subject to temperatures over 65°C.

Size: 320 x 90mm

### Sponge Mop Head SPONGE2

Polyurethane. Do not subject to temperatures over 65°C.

Size: 320 x 90mm

## Buckets

Featuring a range of buckets to suit all needs, from robust builders buckets to galvanised metal buckets for a variety of applications.

### 25L Polypropylene Bucket MBK2

**Ideal for:** Window cleaning; carrying cleaning solutions.  
Size: 240 H x 460 L x 210mm W

### 14L Builders Bucket MBK12

**Ideal for:** General use; non-food contact areas; commercial, household/industrial.  
Size: 330  $\phi$  x 250 x 250mm

### 9L Galvanised Bucket BK9

**Ideal for:** Hot contents; holding ashes; non-food contact surfaces/contents; commercial/household/industrial.  
Size: 275  $\phi$  x 240mm

### 12L Galvanised Bucket BK12

**Ideal for:** Hot contents; holding ashes; non-food contact surfaces/contents; commercial/household/industrial.  
Size: 295  $\phi$  x 260mm

### 10L Stainless Steel Bucket MBK4

Size: 260 x 300mm  $\phi$

### 12L Stainless Steel Bucket MBK6

Size: 290 x 310mm  $\phi$

### 12L Polypropylene Mop Bucket MBK7

**Ideal for:** Carrying cleaning solution for mopping.  
Size: 285 x 370mm

### 9L Shatter Resistant Polypropylene Bucket MBK8

**Ideal for:** Moving ingredients, chemicals.  
Size: 100 x 265mm  $\phi$

## Light Metal Squeegees

Our lighter weight metal squeegees are made with 100% double mousse rubber, ideal for agricultural use, kennels and contract work including applying flooring.

### Light Metal Squeegee SQ6330

Double 100% mousse rubber.

**Suitable Handle:** ALH7A

**Ideal for:** Most flooring; non-food contact.

Size: 340 x 100mm

### Light Metal Squeegee SQ6340

Double 100% mousse rubber.

**Suitable Handle:** ALH7A

**Ideal for:** Most flooring; non-food contact.

Size: 445 x 100mm

### Light Metal Squeegee SQ6356

Double 100% mousse rubber.

Reinforced socket.

**Suitable Handle:** ALH7A.

Size: 550 x 130mm

### Light Metal Squeegee SQ6375

Double 100% mousse rubber.

Reinforced socket.

**Suitable Handle:** ALH7A.

Size: 752 x 130mm

## Wooden Squeegees

Our wooden squeegees come with a heavy-duty rubber blade and are ideal for moving bulk water in flooded conditions. They are also non-conductive.

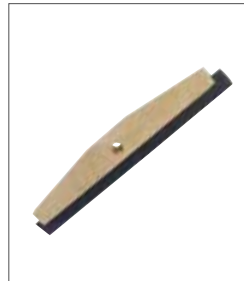

### Wooden Squeegee SQ18

**Ideal for:** Removing water, spillages, wet debris, slurry, muck; all surfaces; non-food contact areas.

Size: 457 x 25mm

27mm

### Wooden Squeegee SQ24

**Ideal for:** Removing water, spillages, wet debris, slurry, muck; all surfaces; non-food contact areas.

Size: 610 x 25mm

27mm

Hygiene Squeegees Page 98-100 ►

## Heavy-Duty Agricultural Metal Squeegees

Our heavy-duty metal squeegees are ideal for tough environments where a solid, durable squeegee system is required. They are particularly good in harsh chemical environments due to the products' excellent structure.

### Heavy Duty Metal Squeegee SQ6400

Galvanised steel frame.  
**Suitable Handles:** A60/2 and ALH4  
**Ideal for:** Removing water, small areas.  
Size: 461 x 90mm

### Heavy Duty Metal Squeegee SQ6500

Galvanised steel frame.  
**Suitable Handles:** A60/2 and ALH4  
**Ideal for:** Removing water, large areas.  
Size: 565 x 90mm

### Heavy Duty Metal Squeegee 24ZPSYC

Zinc plated steel frame.  
**Suitable Handles:** A60/2 and ALH4  
**Ideal for:** Removing water, small areas.  
Size: 600 x 165mm

### Heavy Duty Metal Squeegee 32ZPSYC

Zinc plated steel frame.  
**Suitable Handles:** A60/2 and ALH4  
**Ideal for:** Removing water, large areas.  
Size: 807 x 165mm

### Metal Squeegee Replacement Blade 24RSYCRU

For 24ZPSYC.  
Size: 615 x 77mm

### Metal Squeegee Replacement Blade 32RSYCRU

For 32ZPSYC.  
Size: 817 x 77mm

### Heavy Duty Anodised Aluminium Handle ALH4

Open end (no thread), black end cap.  
Size: 25 x 1300mm

25mm

## Heavy Duty Hazard/Warning Signs

Warning signs are essential in minimising the risk of accidents. For your convenience, we have a variety of printed designs available from stock. Alternatively, we can create your design using our bespoke printing and branding service. Personalised signs for your workplace, featuring a custom message as well as your brand mark.

For more on printing and branding services, visit: [www.hillbrush.com/About-Us/Services/Printing-Branding.aspx](http://www.hillbrush.com/About-Us/Services/Printing-Branding.aspx) or ask one of our Customer Service Advisors for help.

## General Purpose Shovels

Our shovels are the ideal tools for lifting and moving bulk materials such as soil, coal, gravel and sand in many different environments including agriculture, construction and gardening. This range is predominantly manufactured in the UK.

### 1. Hand Shovel

#### SHD7

Black painted steel blade. Wooden handle.

**Ideal for:** General use; moving coal, mud, dust.

Size: 270 x 185mm (Overall 475mm)

### 2. Compact Telescopic Shovel

#### ES1

With 'D' grip handle.

**Ideal for:** General lightweight use; storing in car for bad weather.

Size: 310 x 270mm (Overall 770-970mm)

### 3. Long Handled Metal Shovel

#### LHSH

**Ideal for:** Moving large amounts of debris; sand, mud; commercial/household/industrial.

Size: 300 x 220 x 40mm (Overall 1000mm)

### 4. Short Handled 'D' Grip Extra Light Builders Shovel

#### PSH12

Assorted colours.

**Ideal for:** General use; building trade.

Size: 320 x 260mm (Overall 1000mm)

### 5. 'D' Grip Extra Light Economy Shovel

#### PSH8

**Ideal for:** Gardening, moving debris; councils.

Size: 320 x 260mm (Overall 1100mm)

## Snow Shovels

We offer a comprehensive range of durable snow shovels in various sizes.

### 1. Snow Shovel with Handle SNOW1

**Ideal for:** Lightweight lifting; removing light snow falls; commercial/household/industrial.  
**Size:** 380 x 270mm (Overall 1220mm)

### 2. Heavy Duty Snow Shovel with Handle PSHSB17

**Ideal for:** Heavy duty lifting; removing snow.  
**Size:** 400 x 420 x 100mm (Overall 1792mm)

### 3. Heavy Duty Snow Shovel with Handle & Steel Ice Cutter PSH100

Wide mouth design.  
**Ideal for:** Heavy snow fall, large areas.  
**Size:** 380 x 435 x 80mm (Overall 1320mm)

### Heavy Duty Snow Shovel Head Only PSHSB16

Robust shatter resistant polypropylene.  
**Suitable Handle:** A54/2TAP  
**Ideal for:** Heavy snow falls.  
**Size:** 400 x 420 x 100mm

## Waterflow Brushes

We offer a range of quality heavy-duty waterflow brushes that are ideal for cleaning vehicles, windows, boats, caravans and conservatories.

### 1. Budget Waterflow Brush CFB2

With Telescopic handle.

**Ideal for:** Cleaning windows, vehicles.

Size: 245 x 90mm (Overall 2130mm)

### 2. Superflow Waterflow Brush PROWBMED

With Telescopic handle and male hose connector.

**Ideal for:** Heavy duty cleaning of vehicles.

Size: 240 x 90mm (Overall 1780mm)

### 3. Triple Superflow Waterflow Brush PROWBTRIP

With Telescopic handle and male connector.

**Ideal for:** Heavy duty cleaning of high sided vehicles.

Size: 245 x 90mm (Overall 3300mm)

## Waterflow Accessories

### Superflow Waterflow Replacement Brush PROHEAD

Replacement head for **PROWBMED** and **PROWTRIP**.  
Size: 245 x 90mm

### Hozelock Water Stop Connector W/STOP

To join the above to 12.5mm hosepipe.

**Ideal for:** Preventing water wastage; use with **CFB2**, **PROWBMED**, **PROWBTRIP**.

### Sponge MOGG14

Vacuum packed expanding super sponge.

**Ideal for:** Cleaning vehicles, windows.  
Size: 210 x 115mm

### US Handle Adaptor ADPT2

For joining metric threaded handles to US ACME threaded brooms.

Size: 85 x 32mm  $\varnothing$

## Telescopic General Purpose Handles

### 1. Aluminium Telescopic Handle HAN1352

Complete with swivel and taper connector.

Size: 1300 x 21.5mm (Overall 4000mm)

### 2. Heavy Duty Fibreglass Telescopic Handle FGHS

To fit hygiene products. Compatible with **TAPER/CON**, **AH/CON**.  
Lever locks for ease of extension.

Size: 8200 x 35mm (2000mm when closed)

### Cone Adaptor TAPER/CON

For connecting **AH/CON** to threaded aluminium handles.

Size: 100 x 27mm  $\varnothing$

### Plastic Angle Adaptor Connector AH/CON

Connect to metric threaded handles to allow 100° angle.

Size: 140 x 40mm

## Professional Window Cleaning Range

Our window cleaning range features natural Dura-Flex™ rubber, which is the best rubber in the world for this purpose and offers excellent wiping results coupled with superior durability.

- Highest quality, soft rubber
- Long lasting rubber
- Streak-free results
- Available in different dimensions
- Durable and ergonomically designed

### Squeegee Handle PW1

Ergonomic soft handle, quick release.  
Anti-slip and rust resistant. Use with  
**PW2, PW3, PW4.**  
Size: 152 x 95mm

### Squeegee Channel PW2

Rubber included.  
**Ideal for:** Removing surface water from  
glass when cleaning.  
Size: 249 x 20mm

### Squeegee Channel PW3

Rubber included.  
**Ideal for:** Removing surface water from  
glass when cleaning.  
Size: 350 x 20mm

### Squeegee Channel PW4

Rubber included.  
**Ideal for:** Removing surface water from  
glass when cleaning.  
Size: 447 x 20mm

### Squeegee Replacement Rubber PW6

Dura-Flex™ streak free replacement  
rubber for **PW3.**  
Size: 350 x 20mm

### Squeegee Replacement Rubber PW26

Dura-Flex™ streak free replacement  
rubber for **PW2, PW3, PW4.**  
Size: 1050 x 20mm

### T-Bar Handle PW9

Bi-component T-Bar. Ergonomic soft  
touch handle. Anti-slip.  
Use with **PW31.**  
Size: 250mm (Handle 150mm)

### T-Bar Handle PW10

Bi-component T-Bar. Ergonomic soft  
touch handle. Anti-slip.  
Use with **PW12, PW32.**  
Size: 350mm (Handle 150mm)

### T-Bar Handle PW23

Bi-component T-Bar. Ergonomic soft  
touch handle. Anti-slip.  
Use with **PW33.**  
Size: 450mm (Handle 150mm)

### T-Bar Sleeve PW12

Sleeve with hook and fastener.  
Machine washable.  
**Ideal for:** Glazed surfaces, PVC fascias.  
Size: 385 x 65mm

**Microfibre T-Bar Sleeve  
PW31**

Sleeve with hook, fastener and abrasive pad. Machine washable. Lint free.  
**Ideal for:** Small glazed surfaces, PVC fascias.  
Size: 285 x 65mm

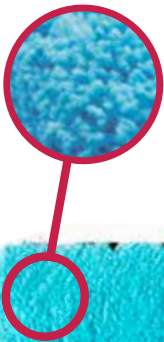

**Microfibre T-Bar Sleeve  
PW32**

Sleeve with hook, fastener and abrasive pad. Machine washable. Lint free.  
**Ideal for:** Medium glazed surfaces, PVC fascias.  
Size: 400 x 65mm

**Microfibre T-Bar Sleeve  
PW33**

Sleeve with hook, fastener and abrasive pad. Machine washable. Lint free.  
**Ideal for:** Large glazed surfaces, fascias.  
Size: 500 x 65mm

Premium Microfibre Sleeve with far superior cleaning power. The microfibre is lint free, retains high quantities of water and doesn't smear glass – resulting in an excellent finish.

### 1. 3m Telescopic Handle

#### PW13

Secure lock. Lightweight, 3-piece handle with anti-slip grips.  
ACME thread. Use with **PW1**, **PW9**, **PW10**, **PW23**, **PW25**.  
Size: 1225-3000mm

### 2. 5m Telescopic Handle

#### PW14

Secure lock. Lightweight, 4-piece handle with anti-slip grips.  
ACME thread. Use with **PW1**, **PW9**, **PW10**, **PW23**, **PW25**.  
Size: 1600-5000mm

#### Web Duster PW25

100% goat hair. Clean by rubbing/rinsing with water. Soft touch anti-slip handle.  
**Ideal for:** Churches, school halls, theatres.  
Size: 360 x 310mm

#### Hands-free Clip-on Holster W04010

For 2 squeegees and 1 washer, all brands (up to 45cm). Impact resistant.  
Left/right handed. Reinforced.  
Size: 330 x 92mm

#### Heavy Duty Bucket PW17

**Ideal for:** Holding equipment, cleaning solution; commercial/household/industrial.  
Size: 490 x 240 x 240mm

#### Pocket Scraper PW18

Safety lock mechanism. Blades not included.  
**Ideal for:** Removing stickers, paint, tape and stubborn dirt from windows.  
Size: 95 x 50mm

#### Replacement Blades PW19

For pocket scraper **PW18**.  
Pack of 5 blades.  
Size: 40 x 25mm

Salmon® Hygiene Technology

## HYGIENE TECHNOLOGY

Our Salmon® Hygiene Technology brand has been specifically designed to meet the stringent requirements of the food and beverage manufacturing industry. State of the art injection moulding and manufacturing divisions in the UK, enable us to control the production process, so we can offer you the highest quality products at reasonable prices.

- Leading the way in product and technical innovation
- Unique and unrivalled engineering expertise
- Developed with the end user and management personnel in mind
- All products are designed for durability and efficiency
- Components are FDA/EU approved
- Independent migration tests show all plastics used are compliant for use in food environments in the EU and US
- UK pioneer of complete hygienic cleaning tool range.

## SALMON® HYGIENE TECHNOLOGY PRODUCT LINES

With a comprehensive range of products for all manner of applications, the science behind Salmon® Hygiene Technology allows for the most challenging cleaning environments to be tackled. The Premier range consists of quality, lightweight entry level products, for daily cleaning tasks. The Professional collection is manufactured from durable, heavy-duty Polypropylene, when more robust cleaning regimes require the next level of quality. The Ultimate range encompasses the pinnacle of all the hygienic cleaning tools, providing unrivalled food-safety innovation. Anti-Microbial Hygienic Tools™ with silver ion technology actively prevent the growth of bacteria on the surface of the products. Resin-Set DRS® brushware (Dual Retention System) contain stainless steel staples and an anti-microbial resin to hold filaments securely and prevent dirt accumulating in tuft-hole areas. Total MDX Hygienic Tools®, which includes Total MDX Brushware™ is the most advanced range available, with metal detectable brush back, filaments and resin. Available in a variety of colours to prevent cross-contamination, whilst aiding HACCP compliance, the Salmon® Hygiene Technology range is at the pinnacle of product advancement.

UK MANUFACTURED

We control all aspects of our manufacturing, including our injection moulding facility. This allows us to provide our customers with specification sheets for every product, detailing their material compliance and other technical qualities.

Salmon® Hygiene Technology

★★★★★ **Plus**  
**ULTIMATE**

## ANTI-MICROBIAL

Our Anti-Microbial cleaning products are designed for areas that require very high standards of cleanliness and where being able to show 'due diligence' in the control of biological and physical contamination is of paramount importance. All cleaning tools in this range contain a uniquely created silver-ion based anti-microbial additive. This additive effectively inhibits the growth of moulds, mildew and bacteria.

- Prevention of over 99% of bacterial contamination, including MRSA, E-Coli, Listeria spp and Campylobacter
- Anti-Microbial properties are not affected by time, cleaning chemicals or abrasion
- Industrial dishwasher safe
- Resin-Set DRS® as standard
- Working temperature range: -18°C/0°F to 79°C/175°F
- All components are FDA/EU approved
- Independent migration tests show all plastics used are compliant for use in food environments in the EU/US
- Visit our website for more technical information.

# RESIN-SET DRS® BRUSHWARE

Minimises loss of brush filaments due to the stainless steel staples and resin (DRS® - Dual Retention System)

Anti-Microbial resin inhibits the growth of bacteria and accumulation of moisture and dirt

RS

RESIN-SET DRS®

## ★★★★★ Plus ULTIMATE RESIN-SET DRS®

Our Resin-Set DRS® brushware boasts a revolutionary improvement in brush filament retention, known as the 'Dual Retention System' (DRS). This unique approach uses both food-grade stainless steel staples and an anti-microbial resin to secure the tufts into the brush back. This not only prevents the accumulation of dirt and moisture in the tuft areas, but also the release of filaments into the food or beverage manufacturing environment.

- 'Dual Retention System' (Resin-Set DRS®), minimises filament loss
- Anti-microbial resin inhibits the growth of moulds, mildews and bacteria
- Available in up to ten colours to assist with work area segregation and HACCP compliance
- All components are FDA/EU approved and industrial dishwasher safe
- Independent migration tests show all plastics used are well within FDA/EU limits
- Working temperature range: -18°C/0°F to 79°C/175°F
- All autoclavable in temperatures up to 134°C/275°F
- The original solution, first produced in 1986
- All products may be autoclaved in temperatures.

Upright filaments complement natural sweeping action in confined spaces

**TOTAL MDX**  
HYGIENIC TOOLS®

Salmon® Hygiene Technology

★★★★★ **Plus**  
**ULTIMATE**

**TOTAL MDX**

The Total MDX (Metal Detectable and X-ray) range has been specifically designed to minimise the risk of contamination. All metal and x-ray detectable products have been tested in food manufacturing environments and results demonstrate that when metal detection machines are correctly calibrated, the sample is detectable.

- Metal detectable and x-ray to combat foreign object contamination
- Effective in both wet and dry conditions
- Food contact approved
- Independently tried and tested
- Detectable properties are not affected by time, cleaning or abrasion
- Total MDX for total peace of mind.

## Total MDX Brushware™

Introducing a world first...Totally metal and x-ray detectable, resin-set brushware. Absolutely everything from the brush back, to the filaments, to the anti-microbial resin is metal and x-ray detectable, making Total MDX Brushware™ the next generation in food safety.

- Metal detectable & x-ray brush back and filaments
- Detectable Resin-Set DRS® (Dual Retention System) technology
- Available in dark blue with grey filaments
- HACCP compliant
- Made from all FDA/EU approved materials.

### Soft Hand Brush B861RESMDX

**Ideal for:** Very light particles; production lines.

Size: 317 x 36mm

### Stiff Short Handled Brush D4RESMDX

**Ideal for:** Production lines.

Size: 254 x 72mm

### Stiff Long Handled Brush D9RESMDX

**Ideal for:** Production lines; hard to reach areas.

Size: 406 x 50mm

### Stiff Nail Brush NA4RESMDX

**Ideal for:** Removing heavy soiling from hands, fingertips.

Size: 122 x 44mm

### Medium Flat Sweeping Brush B758RESMDX

**Ideal for:** Medium size particles.

Size: 300 x 75mm

Dustpans & Handles Pages 87 ▶

All MDX products have been tested in various conditions and have proved to be effective. Factors influencing detection include contaminant dimensions, orientation, material type and environment conditions. Tests must be carried out on correctly calibrated detection equipment, prior to production, to determine detective properties.

### Colour Coded MDX Brushware

A metal & x-ray detectable range of products to fit in with your current work area segregation practices.

- Brush backs available in 4 colours
- Metal and x-ray detectable filaments.

NEW

#### Soft Hand Brush B861MDX

Only filaments are detectable.  
**Ideal for:** Very light particles.  
Size: 317 x 36mm

NEW

#### Stiff Short Handled Brush D4MDX

Only filaments are detectable.  
**Ideal for:** Production lines.  
Size: 254 x 72mm

NEW

#### Stiff Long Handled Brush D9MDX

Only filaments are detectable.  
**Ideal for:** Hard to reach areas.  
Size: 406 x 50mm

NEW

#### Soft Flat Sweeping Broom B1731MDX

Only filaments are detectable.  
**Ideal for:** Stubborn debris.  
Size: 280 x 58mm

NEW

### Single Blade Ultra Hygienic Squeegee & Short Handle\* B1802MDX

Size: 300 x 50mm

NEW

### Ultra-Hygienic Squeegee\* PLSB60MDX

**Ideal for:** Removing excess liquid; high risk areas; smooth surfaces.

Size: 600mm

### 76mm Plastic Hand Scraper PSC1MDX

**Ideal for:** Removing stubborn food debris; worktops, production lines.

Size: 205 x 76mm

### 110mm Plastic Hand Scraper PSC2MDX

**Ideal for:** Removing stubborn food debris; worktops, production lines.

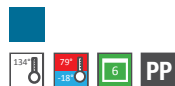

Size: 255 x 110mm

### Seamless Hand Scoop SCOOP2MDX

**Ideal for:** Moving ingredients; food preparation areas.

Size: 60 x 110 x 145mm (Overall 245mm)

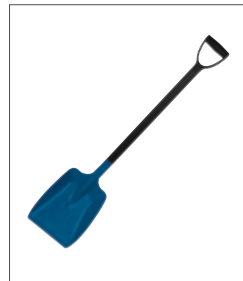

### Seamless Hand Scoop SCOOP4MDX

**Ideal for:** Moving ingredients; food preparation areas.

Size: 90 x 170 x 260mm (Overall 375mm)

### Soft Grip Hand Shovel PSH7MDX

 NOT AUTOCLAVABLE.  
 Only blade is metal detectable.  
 Size: 580 x 260mm (Blade 320mm)

### 'D' Grip Shovel PSH13MDX

 Only blade is metal detectable.  
**Ideal for:** Moving bulk ingredients.  
 Size: 1150 x 260mm (Blade 320mm)

NEW

### Open Plastic Dustpan DP13MDX

**Ideal for:** Removing debris.

Size: 325 x 315mm

NEW

### Type 304 Stainless Steel Handle SSH2MDX

With metal detectable Polypropylene handgrip. Use with our MDX brushware.

Size: 1350mm

NEW

### Wall Bracket System WLBR1MDX

**Ideal for:** Stowing Salmon® Hygiene Technology cleaning tools.

Size: 206 x 75mm

NEW

### Wall Bracket HH2MDX

**Ideal for:** Hanging our Ultra Hygienic Buckets (MBK15) on walls.

Size: 120 x 110 x 80mm

\* We recommend conducting a resistance test before using this product on oily or acidic substances/surfaces, as some may cause an adverse reaction.

### 12L Ultra Hygienic Bucket with Lid MBK15/SETMDX\*

**Ideal for:** Moving ingredients, cleaning chemicals.

Size: 290 x 308mm ø

### 12L Ultra Hygienic Bucket MBK15MDX\*

**Ideal for:** Moving ingredients, cleaning chemicals.

Size: 290 x 308mm ø

### Lid for the Ultra Hygienic Bucket MBK15/LIDMDX\*

Size: 15 x 310mm ø

## Additional MDX Products

Contamination control programmes for food and beverage industries are more important than ever. For this reason, we have introduced a varied range of metal detectable and x-ray detectable (MDX) tools and accessories, designed to reduce the risk of contamination.

NEW

### Coated Work Gloves (Per Pair) 01MDX

100% cotton interlock lining.

**Ideal for:** General protection, assembly, transportation, agricultural work.

NEW

### Two Box Glove Dispenser 02MDX

Gloves not included. Supplied with keyhole points to enable wall fitting.

Size: 250 x 290 x 70mm

NEW

### Plastic Gloves 19MDX

To fit our Glove Dispenser (02MDX)

Size: 250 x 135 x 70mm

NEW

### Fine Mesh Hair Net 03MDX

**Ideal for:** Guarding food from contamination by stray hair and the organisms that it carries.

NEW

### Mob Cap 04MDX

**Ideal for:** The customer who wants a thicker hair covering for employees with long hair.

NEW

### Non-Woven Beard Snood 05MDX

**Ideal for:** Providing protection whilst allowing the wearer to breathe easily without the build-up of condensation.

NEW

### Fine Mesh Beard Snood 06MDX

**Ideal for:** Providing protection whilst allowing the wearer to breathe easily without the build-up of condensation.

\*\* Community Registered Design No 002368548-0001

NEW

### Disposable Corded Ear Plugs 07MDX

**Ideal for:** Protection at SNR 36dB.

NEW

### Disposable Ear Plugs without Cord 08MDX

**Ideal for:** Maximum comfort, providing protection at SNR 36dB.

NEW

### Re-Usable Ear Plugs with Cord 09MDX

**Ideal for:** Exerting only sufficient pressure within the ear canal to ensure the required acoustic seal.

NEW

### Shoe Covers 10MDX

**Ideal for:** Improving hygiene and cleanliness.

NEW

### Disposable Polythene Aprons on a Roll (100 per roll) 11MDX

Size: 700 x 1250mm

NEW

### Desktop Calculator 12MDX

**Ideal for:** Environments with greasy/powdery/cold/warm conditions.  
Size: 150 x 120mm

NEW

### A4 Plastic Clipboard 13MDX

With stainless steel clip  
**Ideal for:** Cold environment; freezers.  
Size: 230 x 320mm

NEW

### Retractable Bullet Tip Whiteboard Marker 14MDX

Choice of ink colour.  
**Ideal for:** Use in all food environments.

NEW

### Permanent Marker 15MDX

Choice of ink colour.  
**Ideal for:** Use in all food application environments.

NEW

### Non-Retractable Bullet Tip Permanent Marker 16MDX

Choice of ink colour.  
**Ideal for:** Use in all food environments.

NEW

### Retractable Ballpoint Pen with Clip 17MDX

Blue ink. Choice of housing colour.

NEW

### Retractable Ballpoint Pen with Clip 18MDX

Black ink. Choice of housing colour.

# PROFESSIONAL

- Available in up to eight colours to assist with work area segregation and HACCP
- Industrial dishwasher safe
- Working temperature range: -18°C/0°F to 79°C/175°F
- All products may be autoclaved in temperatures up to 134°C/275°F
- Components are FDA/EU approved
- Independent migration tests show all plastics used are within FDA/EU limits.

### Soft Glazing Brush GL30

Resin-Set WITHOUT stainless steel staples.  
**Ideal for:** Applying eggs, oil, butter.  
Size: 25 x 195mm

### Soft Glazing Brush GL11

Resin-Set WITHOUT stainless steel staples.  
**Ideal for:** Applying eggs, oil, butter.  
Size: 50 x 210mm

### Soft Glazing Brush GL31

Resin-Set WITHOUT stainless steel staples.  
**Ideal for:** Applying eggs, oil, butter.  
Size: 75 x 220mm

### Soft Pastry Brush PA2

Resin-Set WITHOUT stainless steel staples.  
**Ideal for:** Applying eggs, oil, butter.  
Size: 240 x 25mm ø

### Stiff Detail Brush B1606

Crimped fill.  
**Ideal for:** Difficult to access areas.  
Size: 225 x 21mm

### Medium Niche Brush B1241

Crimped fill.  
**Ideal for:** Difficult to access areas.  
Size: 180 x 10mm

### Soft Hand Brush B861

Crimped fill.  
**Ideal for:** Light particles; production lines.  
Size: 317 x 36mm

### Stiff Hand Brush B862

**Ideal for:** Heavy particles, stubborn debris; production lines; food preparation areas.  
Size: 317 x 36mm

### Medium Hand Brush B864

Crimped fill.  
**Ideal for:** Medium particles.  
Size: 317 x 36mm

### Medium Utility Brush B884

**Ideal for:** Production lines, conveyor belts, utensils; preparation areas.  
Size: 260 x 48mm

### Stiff Short Handled Brush D4

**Ideal for:** Production lines; catering, manufacturing use.  
Size: 254 x 72mm

### Soft Short Handled Brush D5

Crimped fill.  
**Ideal for:** Production lines; catering.  
Size: 254 x 72mm

### Stiff Long Handled Brush

**D9**

**Ideal for:** Production lines; hard to reach areas; catering, manufacturing use.  
Size: 406 x 50mm

### Soft Long Handled Brush

**D10**

Crimped fill.  
**Ideal for:** Hard to reach areas.  
Size: 406 x 50mm

### Medium Nail Brush

**NA2**

**Ideal for:** Removing heavy soiling from hands, fingertips.  
Size: 122 x 44mm

### Stiff Nail Brush

**NA4**

**Ideal for:** Removing heavy soiling from hands, fingertips.  
Size: 122 x 44mm

### Medium Grippy Nail Brush

**NA10**

**Ideal for:** Removing heavy soiling from hands, fingertips; food manufacturing.  
Size: 102 x 34mm

### Dual Stiffness Double Wing Scrub

**ST5**

**Ideal for:** Removing medium-large size particles; conveyor belts, production lines.  
Size: 210 x 65mm

### Large Stiff Curved Back Scrub

**ST7**

**Ideal for:** Medium-large size particles; cleaning around corners; conveyor belts.  
Size: 198 x 70mm

### Stiff Grippy Scrub

**ST8**

**Ideal for:** Medium-large size particles; cleaning around corners; conveyor belts.  
Size: 152 x 60mm

### Stiff Round Scrub

**ST9**

**Ideal for:** Sinks, trays, buckets, containers; production lines, worktops.  
Size: 100 x 115mm ø

### Stiff Flexi Scrub

**ST10**

White back only. NOT AUTOCLAVABLE  
**Ideal for:** Containers, buckets, pipework.  
Size: 176 x 70mm

### Small Stiff Curved Back Scrub

**ST14**

**Ideal for:** Medium-large size particles; cleaning around corners; conveyor belts.  
Size: 165 x 44mm

NEW

### Soft XL Bench Brush

**B1851**

Crimped fill.  
**Ideal for:** Fine particles, workstations.  
Size: 345 x 40mm

## Stainless Steel Strip Brushes

Designed with a thin section and a dense concentration of filament to aid cleaning in narrow areas. These brushes can be easily cleaned with standard cleaning agents.

### Medium Stainless Steel Strip Brush B1538

NOT AUTOCLAVABLE  
**Ideal for:** Cleaning fish or narrow areas.  
 Size: 240 x 5mm

 0.35mm

### Soft Stainless Steel Strip B976

NOT AUTOCLAVABLE  
**Ideal for:** Removing dust and fine debris.  
 Size: 315 x 32mm

 0.30mm

## Stainless Steel Wire Brushes

Ideal for removing stubborn debris. They can be easily cleaned with standard cleaning agents.

### Stainless Steel Wire Scratch WS65

**Ideal for:** Removing ingrained, burnt on deposits; metal surfaces; grills.  
 Size: 279 x 35mm

 0.31mm

### Stainless Steel Floor Scrub B1342

**Ideal for:** Removing stubborn deposits; stainless steel conveyor belts.  
 Size: 230 x 50mm

 0.31mm

### Stainless Steel Niche Brush B1240

**Ideal for:** Removing very stubborn, burnt on deposits.  
 Size: 180 x 10mm

 0.15mm

**Very Stiff Deck Scrub  
B928**

**Ideal for:** Very heavy soiling; stairs, tight corners; small areas.  
Size: 230 x 50mm

**Medium Flat Sweeping Broom  
B929**

Crimped fill.  
**Ideal for:** Very heavy soiling; stairs.  
Size: 230 x 50mm

**Medium High/Low Brush  
B1783**

**Ideal for:** Cleaning corners; preparation areas; ceilings and floors.  
Size: 260 x 50mm

**Stiff Deck Scrub  
B770**

**Ideal for:** Very heavy soiling; large areas; production environments.  
Size: 300 x 75mm

**Stiff Outside Broom  
B757**

**Ideal for:** Outdoor use; all types of debris.  
Size: 300 x 75mm

**Medium Flat Sweeping Broom  
B758**

Crimped fill.  
**Ideal for:** Medium size particles.  
Size: 300 x 75mm

**Very Stiff Deck Scrub  
B759**

**Ideal for:** Very heavy soiling; large surface areas.  
Size: 300 x 75mm

**Soft Flat Sweeping Broom  
B849**

Crimped fill.  
**Ideal for:** Small particles; dry manufacturing.  
Size: 300 x 75mm

**Stiff Flat Sweeping Broom  
B993**

**Ideal for:** Stubborn particles; heavy duty work; small areas.  
Size: 300 x 75mm

**Soft Narrow Broom  
B1082**

Crimped fill.  
**Ideal for:** Small particles; small areas.  
Size: 390 x 50mm

**Stiff Narrow Broom  
B1083**

**Ideal for:** Small particles; small areas; dry manufacturing.  
Size: 390 x 50mm

**Medium Flat Sweeping Broom  
B809**

Crimped fill.  
**Ideal for:** Large areas; medium particles.  
Size: 457 x 75mm

### Soft Flat Sweeping Broom

**B896**

Crimped fill.

**Ideal for:** Small particles; large areas.

Size: 457 x 75mm

### Stiff Flat Sweeping Broom

**B994**

**Ideal for:** Stubborn particles; heavy duty work; large areas.

Size: 457 x 75mm

### Medium Flat Sweeping Broom

**B883**

**Ideal for:** Small particles; large open areas; manufacturing.

Size: 610 x 75mm

### Soft Flat Sweeping Broom

**B1134**

Crimped fill.

**Ideal for:** Small particles; large areas.

Size: 610 x 75mm

NEW

### Medium Upright Sweeping Broom

**B1850**

Crimped fill.

**Ideal for:** Dust particles in edges and corners.

Size: 252 x 45mm

## Swivel Scrub

Ideal for tiled flooring and walls. The universal swivel socket allows cleaning in difficult areas.

### Very Stiff Swivel Scrub with Universal Joint

**ST12**

White stock. **Suitable Handle:** ALH7

Size: 197 x 78mm

## Grout Scrub

Specially designed 'V' profile allows accurate cleaning of tiling grout. The 179° swivel socket allows cleaning at all angles.

### Very Stiff Grout Scrub with Swivel Connector

**ST11**

White stock. **Suitable Handle:** ALH7

Size: 240 x 34mm

### Cassette Squeegee

Heavy duty squeegee with cassette system using GREEN DURA-FLEX™ rubber, a unique, natural mousse rubber, recommended when hygiene is extremely important. It has perfect density, so does not absorb water. The natural skin adds strength and helps prevent bacteria from harbouring inside the squeegee.

- Rigid frame stays solid on the ground
- Less pressure needed for superior results
- Easy clean, detachable cassette
- Patented super lock-unlock loading system
- Working temperature range (body): Up to 79°C/176°F
- Working temperature range (rubber): -40°C/-40°F to 79°C/176°F
- GREEN DURA-FLEX™ rubber is strong and flexible with excellent elasticity and is FDA/EU approved
- Reversible, double rubber blade, for twice the cleaning power.

#### Squeegee Cassette System\* SQCAS4

Suitable Handles: ALH7, ALH8, PLH3  
Ideal for: Heavy duty use.  
Size: 400mm

#### Cassette Refill\* CAS4

Replacement cassette for SQCAS4.

Size: 400 x 55mm

#### Squeegee Cassette System\* SQCAS6

Suitable Handles: ALH7, ALH8, PLH3  
Ideal for: Heavy duty use.  
Size: 600mm

#### Cassette Refill\* CAS6

Replacement cassette for SQCAS6.

Size: 600 x 55mm

### Double Bladed Plastic Squeegee

Designed for industrial use. To be used on coated/uncoated concrete floors, asphalt and other smooth surfaces.

- Unique universal handle socket
- Double rubber blade
- FDA/EU approved.

NEW

#### Double Bladed Plastic Squeegee\* PS45

Ideal for: Controlling liquid spillages.  
Size: 450mm

NEW

#### Double Bladed Plastic Squeegee\* PS60

Ideal for: Controlling liquid spillages.  
Size: 600mm

NEW

#### Double Bladed Plastic Squeegee\* PS75

Ideal for: Controlling liquid spillages.  
Size: 750mm

\* We advise you to carry out a resistance test before using this product on oily or acidic substances/surfaces as some may cause an adverse reaction.

### Stainless Steel Twisted-in Wire Brushes

Available in five colours, these wire brushes are ideal for smaller vessels and short piping.

#### Medium Twisted-in Stainless Steel Wire Brush

**T831**

Crimped fill. Resin-Set handle.  
Size: 375 x 13mm  $\varnothing$

#### Medium Twisted-in Stainless Steel Wire Brush

**T832**

Resin-Set handle.  
Size: 375 x 25mm  $\varnothing$

#### Medium Twisted-in Stainless Steel Wire Brush

**T833**

Resin-Set handle.  
Size: 435 x 38mm  $\varnothing$

#### Medium Twisted-in Stainless Steel Wire Brush

**T834**

Resin-Set handle.  
Size: 435 x 50mm  $\varnothing$

#### Medium Twisted-in Stainless Steel Wire Brush

**T835**

Resin-Set handle.  
Size: 440 x 64mm  $\varnothing$

#### Medium Twisted-in Stainless Steel Wire Brush

**T836**

Resin-Set handle.  
Size: 440 x 75mm  $\varnothing$

NEW

#### Outer Pipe Twisted-in Stainless Steel Wire Brush

**T1025**

Taper connector fits: ALH7, ALH8, HAN1352  
Size: 350 x 50mm  $\varnothing$

Curved design proves useful when cleaning on top of pipes.

## Plastic Core Tube Brushes

Our heavy-duty Plastic Core Tube brushes are ideal for cleaning piping, tubing and drainage.

- Compatible with the following hygienic handles: PLH3, ALH8, ALH30, ALH27, ALH1x5 and ALH7 (see pages 105-106)
- The core is white only.

### Medium Plastic Core Tube Brush B1529/75

Crimped fill, white core only.

Size: 175 x 75mm  $\emptyset$

### Medium Plastic Core Tube Brush B1529/95

White core only.

Size: 175 x 95mm  $\emptyset$

### Medium Plastic Core Tube Brush B1529/115

White core only.

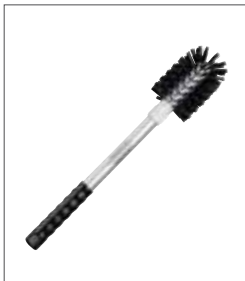

Size: 175 x 115mm  $\emptyset$

### Medium Plastic Core Tube Brush B1529/130

White core only.

Size: 175 x 130mm  $\emptyset$

### Medium Drain Brush B1659BLK

Polyester fill. Domed head. Complete with aluminium handle.

**Ideal for:** Commercial/household/industrial.

Size: 470 x 90mm  $\emptyset$

## Flexi Twisted Wire Brush

Our range of flexible twisted wire brushes are designed for areas where standard wire brushes cannot reach. Available in two sizes with a selection of colour coded filaments to aid HACCP compliance; they are ideal for cleaning intricate pipework in food production environments.

### Medium 3m Flexi Handled Twisted Wire Brush T942

With acetal rod.

Size: 3000 x 25mm  $\emptyset$

### Medium 3m Flexi Handled Twisted Wire Brush T945

With acetal rod.

Size: 3000 x 75mm  $\emptyset$

### Stainless Steel Twisted in Wire Brushes and Long Flexi Handles

- Stainless steel twisted in wire brushes with stainless steel connecting ferrules
- Ideal for cleaning long lengths of pipe work
- Available in four colours
- Brushes may be screwed into flexible 800mm, 1500mm or 3000mm stainless steel handles.

**Twisted Wire Head T961**  
 With stainless steel male ferrule.  
**Ideal for:** Cleaning intricate pipework.  
 Size: 100 x 12mm  $\phi$  (Overall 150mm)

## Anodised Aluminium Handles with Handgrips

A great balance between strength and efficiency, our aluminium handles can be effectively used anywhere in food processing facilities.

### 1. Anodised Aluminium Handle ALH30

With coloured polypropylene handgrip.  
Size: 340mm

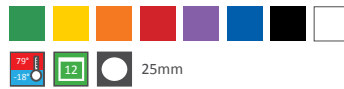

### 2. Anodised Aluminium Handle ALH15

With coloured polypropylene handgrip.  
Size: 700mm

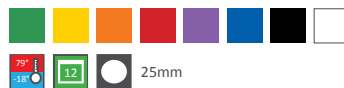

### 3. Anodised Aluminium Handle & Polypropylene Sleeve ALH27

Size: 1300mm

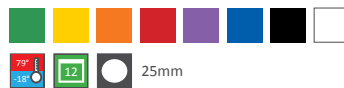

### 4. Anodised Aluminium Handle & Polypropylene Sleeve ALH8

Size: 1550mm

### 5. Threaded Anodised Aluminium Handle ALH7

With coloured polypropylene handgrip.  
Size: 1360mm

### 6. Non-Threaded Swaged-End Aluminium Handle ALH7A

With coloured polypropylene handgrip.  
Size: 1360mm

### Light Duty Handles

#### 1. Lightweight Anodised Aluminium Handle ALH3

With coloured polypropylene handgrip.  
Size: 1195mm

#### 2. Lightweight Anodised Aluminium Handle ALH5

With coloured polypropylene handgrip.  
Size: 1270mm

### Stainless Steel Handles

#### 3. Type 304 Stainless Steel Handle SSH2

With coloured polypropylene handgrip.  
Size: 1350mm

#### 4. Type 304 Stainless Steel Handle SSH4

With coloured polypropylene handgrip.  
Size: 1550mm

### Fibreglass Handle

#### 5. Fibreglass Handle FG2

With coloured polypropylene handgrip.  
Size: 1400mm

### One Piece Plastic Handle

#### 6. One Piece Polypropylene Handle PLH3

Reinforced threaded end for added strength.  
Use with hygiene brushware and squeegees.  
Size: 1400mm

#### Spare Polypropylene Handgrip PLHGRP6

To fit handles: ALH7, ALH30, ALH15, FG2, SSH2 and SSH4  
Size: 150mm

## Waterflow Brushware

Achieve simultaneous washing and brushing with our range of waterflow cleaning tools.

- Available in up to seven colours
- Can be autoclaved at temperatures of 134°C/275°F
- Ideal for cleaning high areas, large vats, tanks and gullies.

### Medium Bulk Tank Brush D77

**Ideal for:** Cleaning tanks, vats, gullies.

Size: 216 x 59mm

### Stiff Bulk Tank Brush D79

**Ideal for:** Cleaning tanks, vats, gullies.

Size: 216 x 59mm

### Soft Curved Wall Brush B1056

Crimped fill, white back only.

**Ideal for:** Chemical agitation; cleaning walls.

Size: 275 x 70mm

## Accessories

### Waterflow Connector WH/CON

For joining handle extensions.

### Hozelock Water Stop Connector W/STOP

**Ideal for:** Preventing water wastage.

## Waterflow Handles

### 1. 1.4m Waterflow Handle

#### WFPLH3

Fixed length. Standard thread one end, the other has a hozelock water connector.

Size: 1400mm

### 2. 1.7m-2.8m Telescopic Waterflow Handle

#### WFPLH3EX

Standard thread one end, the other has a hozelock water connector.

Size: 1700-2800mm

### 3. Anodised Aluminium Extension

#### ALH17

White threads.

To be used with other waterflow products.

Size: 690mm

### 4. Anodised Aluminium Extension

#### ALH19

White threads.

To be used with other waterflow products.

Size: 1340mm

### 5. Anodised Aluminium Extension

#### ALH18

With colour coded grips and connector for **W/STOP**, use with waterflow products.

Size: 1350mm

### Wash & Foam System

Our range of the highest quality wash and foam equipment features durable, triple walled hoses, robust shock proof guns and hydrofoamers for use with chemicals. Designed to cope with varying temperatures and the rigors of daily cleaning regimes.

- Highest quality stainless steel components
- Robust and durable.

NEW

#### Heavy Duty Shock Proof Gun WF01

Pressure up to 24bar.  
**Ideal for:** Industrial or domestic use, from vehicles to commercial kitchens.

NEW

#### Stainless Steel Hose Connections for Heavy Duty Shock Proof Gun WF02

Connects to 1/2" hoses (12mm inside) or 3/4" (19mm inside).

NEW

#### 1.4L HydroFoamer complete with Gun Assembly HF1

For use with concentrated chemicals.

NEW

#### 2.8L HydroFoamer complete with Gun Assembly HF2

For use with concentrated chemicals.

NEW

#### Stainless Steel Automatic Hose Reel WF03

Robust spring-driven hose reel holds up to 25m of hose at 1/2" diameter. Pressure up to 200bar (2900psi). Hose not included.

NEW

#### Stainless Steel Wall Swivel Bracket for Hose Reel WF04

Swivel action has 160° radius for flexibility when hose is in use.

### Thermoclean Hose WF05/25

20 bar and 70°C pressure. Three layer structure with single polyester braided reinforcement and non-staining outer layer. 12mm Ø inside, 22mm Ø outside. 25 metre length. Without connectors.

### Thermoclean Hose WF05/100

20 bar and 70°C pressure. Three layer structure with single polyester braided reinforcement and non-staining outer layer. 12mm Ø inside, 22mm Ø outside. 100 metre length. Without connectors.

### Ultimate Hose WF06/25

50 bar and 70°C pressure. Three layer structure with double polyester braided reinforcement and non-staining outer layer. 12mm Ø inside, 22mm Ø outside. 25 metre length. Without connectors.

### Ultimate Hose WF06/100

50 bar and 70°C pressure. Three layer structure with double polyester braided reinforcement and non-staining outer layer. 12mm Ø inside, 22mm Ø outside. 100 metre length. Without connectors.

### Screw Hose Connector WF07

Connect our WF05 hose to various accessories.

### Screw Hose Connector WF13

Connect our WF06 hose to various accessories.

### 1/2" External Male Stainless Steel Quick Coupler WF08

To connect our hoses to various accessories.

### 1/2" Internal Female Stainless Steel Quick Coupler WF09

To connect our hoses to various accessories.

### 1/2" External Female Stainless Steel Quick Coupler WF10

To connect our hoses to various accessories.

### Stainless Steel Ball Valve in Stainless Steel Protection Cover WF11

Pressure up to 75bar and 95°C. 1/2" internal and external threads.

### Stainless Steel Ball Valve in Blue Rubber Protection Cover WF12

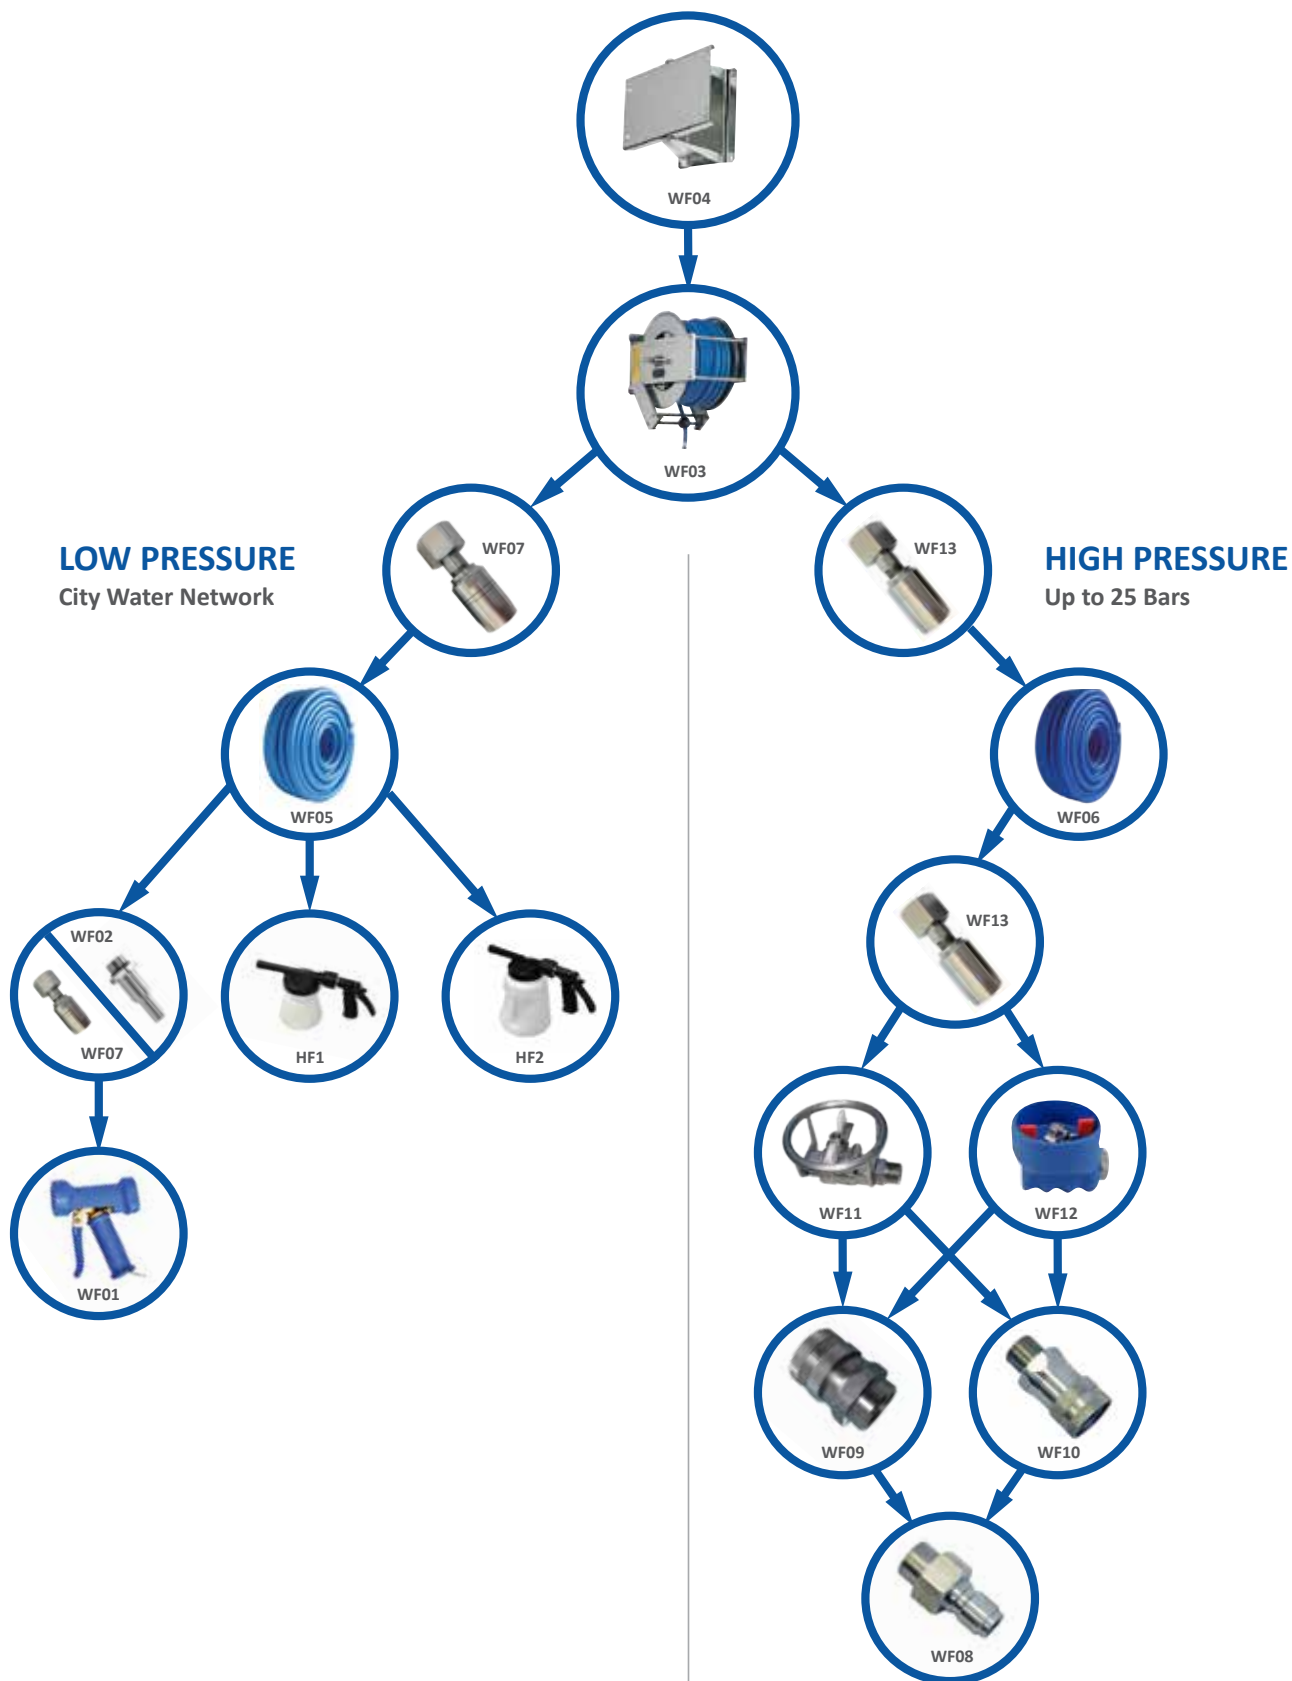

Pressure up to 60bar and 95°C. 1/2" internal and external threads.

# WASH & FOAM SYSTEMS PRODUCT GUIDE

Our guide illustrates the intended use of the Wash and Foam Systems range, as well as the interchangeability of connectors and attachments. Simply follow the guide from the top and choose your route toward the bottom to learn which products are compatible.

## Mops

With a wide range of materials and styles to choose from, we have a mop for every application.

**Hygiemix Mops** are produced from a 50/50 blend of bleached cotton and synthetic yarns. Benefiting from superior wearing, wicking and absorption qualities, they can be laundered up to 60°C/140°F.

**Super-Absorbent Mops** are exactly that! Soaking up to 5 times their weight in water, they are resistant to shrinkage and are machine washable up to 30°C/86°F.

**Biokryl Mops** contain Biokryl Plus™, which inhibits fungal and bacteria growth and is unaffected by repeated laundering.

### Hygiemix Mops

**Looped Polyester ‘Hygiemix’ Yarn Mop (Bagged) MOP5/250**

**Ideal for:** Soiled areas; smooth flooring.  
**Suitable Handles:** ALH5, ALH7, ALH8

**Looped ‘Hygiemix’ Kentucky Mop KMOP6/450**

Abrasive centre band for stubborn marks.  
Reduced shrinkage.  
**Suitable Handles:** ALH5, ALH7, ALH8

**Blue Looped Polyester Kentucky Mop KMOP4/450**

Abrasive centre band for stubborn marks.  
**Suitable Handles:** ALH5, ALH7, ALH8

### Super-Absorbent Mops

**Super Absorbent Strip Mop MOP10/130**

**Ideal for:** Soiled areas; tiles, smooth flooring.  
**Suitable Handle:** ALH5, ALH7, ALH8

**Super Absorbent Kentucky Strip Mop KMOP8/250**

**Ideal for:** Tiles, smooth flooring.  
**Suitable Handles:** ALH5, ALH7, ALH8

### Biokryl Mops

**Bio Mop (Bagged) MOP9/200**

Contains ‘Biokryl Plus™’. Coloured threaded socket.  
**Suitable Handles:** ALH5, ALH7, ALH8

**Bio Kentucky Mop KMOP11/340**

Contains ‘Biokryl Plus™’. Similar to KMOP6/450 with the advantage of ‘Biokryl Plus™’.  
**Suitable Handles:** ALH5, ALH7, ALH8

## Accessories

### Plastic Kentucky Mop Holder KEN/CLIP

For attaching Kentucky mop heads to Salmon® Hygiene Technology handles.  
**Suitable Handles:** ALH5, ALH7, ALH7A

### Aluminium Handle & Kentucky Mop Holder ALH/CLIP2

Coloured plastic holder.  
Handle Length: 1380mm

### 12L Polypropylene Mop Bucket MBK7

**Ideal for:** Carrying cleaning solution for mopping.  
Size: 285 x 370mm

### 9L Shatter Resistant Polypropylene Bucket MBK8

**Ideal for:** Moving ingredients, chemicals.  
Size: 100 x 265mm ø

## Stainless Steel Buckets

Complete with a bottom band, swing handle and the integral measuring scale, our stainless steel buckets are ideal for moving solid or liquid ingredients.

- 10 or 12 Litre
- Stainless steel throughout
- Immensely strong and durable
- Base band for stability
- Litre graduations.

### 10L Stainless Steel Bucket MBK4

Size: 260 x 300mm ø

### 12L Stainless Steel Bucket MBK6

Size: 290 x 310mm ø

### Ultra Hygienic Bucket

Our new Ultra Hygienic Bucket is ideal for moving ingredients or cleaning chemicals in food preparation areas. It has been designed to withstand industrial use and is made from FDA/EU approved materials. The bucket has a hand grip at the bottom for easy pouring of its contents and can be purchased with or without a lid.

- Base handgrip fits our **HH2** wall bracket (see below)
- Base band for stability and durability
- The only food industry bucket with a detachable hinged lid, **MBK15/LID** (see below)
- Hinged lid ensures safety in the workplace.

### 12L Ultra Hygienic Bucket with Lid MBK15/SET\*

**Ideal for:** Moving ingredients, cleaning chemicals.

Size: 290 x 308mm ø

### 12L Ultra Hygienic Bucket MBK15\*

**Ideal for:** Moving ingredients, cleaning chemicals.

Size: 290 x 308mm ø

NEW

### Wall Bracket HH2

**Ideal for:** Hanging our Bag Hoops (HH1) or Ultra Hygienic Buckets (MBK15)  
Size: 120 x 110 x 80mm

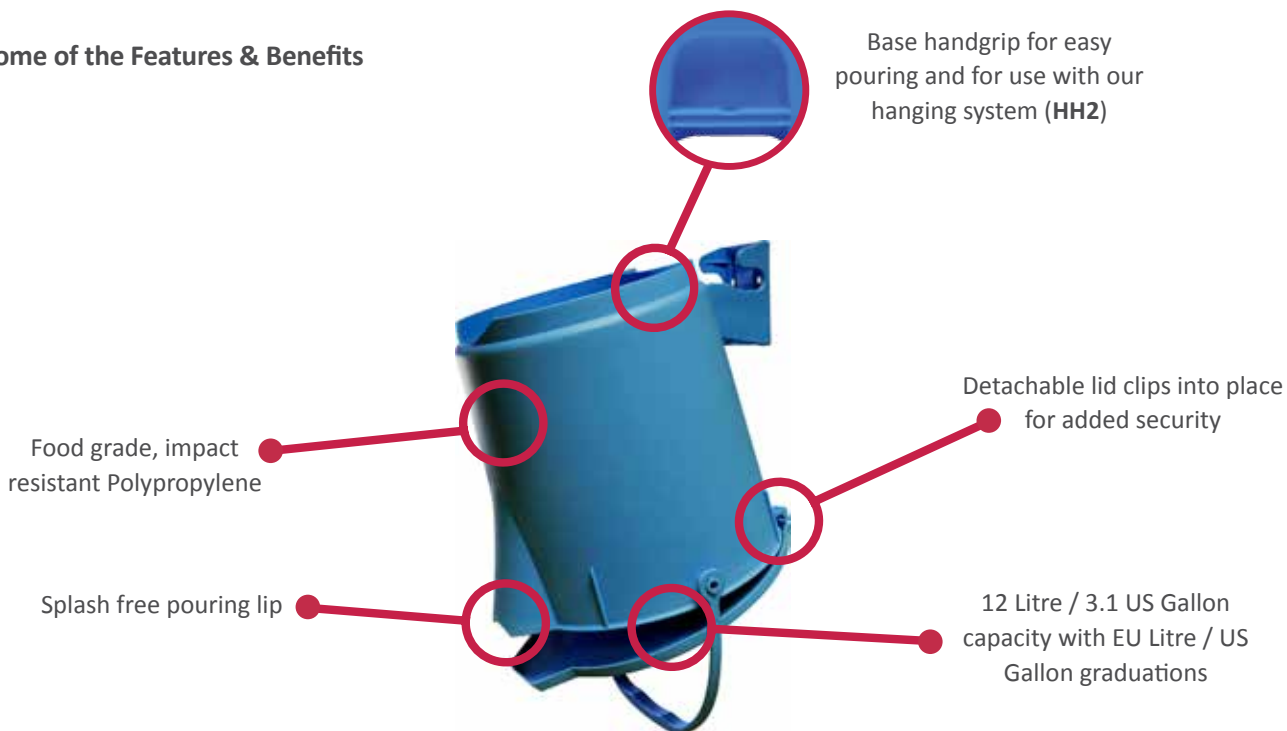

### Lid for the Ultra Hygienic Bucket MBK15/LID\*

Size: 15 x 310mm ø

### Some of the Features & Benefits

\*\* Community Registered Design No 002368548-0001

## Plastic Scrapers

### 76mm Plastic Hand Scraper PSC1

**Ideal for:** Removing stubborn food debris; worktops, production lines.  
Size: 205 x 76mm

### 110mm Plastic Hand Scraper PSC2

**Ideal for:** Removing stubborn food debris; worktops, production lines.  
Size: 255 x 110mm

### 110mm Heat Resistant Plastic Hand Scraper PSC5

**Ideal for:** Hot surfaces up to 240°C.  
Size: 255 x 110mm

### Flexible Plastic Scraper FLPSC3

**Ideal for:** Cleaning bowls and container vessels in food manufacturing.  
Size: 90 x 200mm

## Stainless Steel Hand Scrapers

Colour coded hand tool for food production areas. Remove stubborn items from all manner of surfaces, quickly and efficiently.

### 75mm Stainless Steel Hand Scraper MSC3

**Ideal for:** Removing stubborn debris.  
Size: 75 x 223mm (Blade 118mm)

### 35mm Stainless Steel Hand Scraper MSC3/38

**Ideal for:** Removing stubborn debris.  
Size: 230mm x 35mm (Blade 115mm)

### Stainless Steel 'Scotch' Dough Cutter MSC4

**Ideal for:** Cutting dough.  
Size: 157 x 87mm (Blade 45mm)

### Flexible Stainless Steel Hand Scraper MSC22

**Ideal for:** Removing stubborn debris.  
Size: 125 x 100mm (Blade 85mm)

## Steel Blade Scraper

Ideal for removing impacted, stuck-on material from concrete flooring.

- Rugged, heavy build
- Cast alloy frame and handle cannot be separated
- Steel nyloc nuts and bolts hold blade in place
- Immensely durable.

### 1. Stainless Steel Blade & Aluminium Handle MSC1

With coloured handgrip.

Size: 200 x 1.3 x 1300mm

#### Replacement Stainless Steel Blade

##### MBLD1

For MSC1.

Size: 200 x 1.3mm

### 2. Sprung Steel Blade & Aluminium Handle MSC2

With coloured polypropylene handgrip.

Size: 200 x 0.8mm (Overall 1300mm)

#### Replacement Sprung Steel Blade MBLD2

For MSC2.

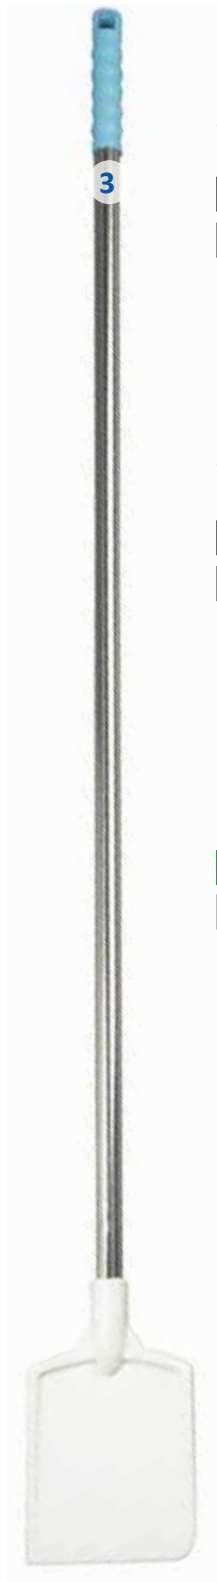

Size: 200 x 0.8mm

### Paddles

Designed specifically with the food industry in mind, these paddles can be used in both liquid and solid materials.

#### 1. One Piece Polypropylene Paddle PADL10

**Ideal for:** Mixing ingredients in cooking vats; food preparation areas.  
Size: 1200 x 160mm (Blade 260mm)

#### 2. One Piece Polypropylene Paddle with Holes PADL11

**Ideal for:** Mixing ingredients.  
Size: 1200 x 160mm (Blade 260mm)

#### 3. Polyester Paddle with Stainless Steel Handle PADL3

Coloured hanging grip. Blade can withstand 240°C.  
Size: 1520 x 155mm (Blade 200mm)

## Hygiene Shovels

Fully colour coded Polypropylene shovels for use in HACCP systems. Durable, metal-free and seamless, whether welded or one-piece construction.

### 1. Soft Grip Hand Shovel

**PSH7**

NOT AUTOCLAVABLE.

**Ideal for:** Moving bulk ingredients.

Size: 320 x 260mm (Overall 580mm)

### 2. 'T' Grip Shovel

**PSH2**

**Ideal for:** Moving bulk ingredients; removing large amounts of debris.

Size: 320 x 260mm (Overall 1150mm)

### 3. 'D' Grip Shovel

**PSH13**

**Ideal for:** Moving bulk ingredients; removing large amounts of debris.

Size: 320 x 260mm (Overall 1150mm)

### 4. Large 'D' Grip Shovel

**PSH6**

**Ideal for:** Moving bulk ingredients; removing large amounts of debris.

Size: 330 x 310mm (Overall 1170mm)

**1. Heavy Duty 'D' Grip One Piece Shovel  
PSHOPS**

**Ideal for:** Moving bulk ingredients, grain, rubbish, heavy rubble.  
Size: 350 x 270mm (Overall 1320mm)

**2. Heavy Duty Large 'D' Grip One Piece Shovel  
PSHOPL**

**Ideal for:** Moving bulk ingredients, grain, rubbish, heavy rubble.  
Size: 390 x 330mm (Overall 1320mm)

## Hygiene Dustpans

Our dustpans are made using food grade polypropylene and come in up to nine colours. They are ideal for removing debris on surfaces.

### Open Plastic Dustpan DP13

**Ideal for:** Removing debris; catering, manufacturing.  
Size: 325 x 315mm

### Enclosed Dustpan DP3

**Ideal for:** Removing large amounts of debris.  
Size: 180 x 300mm

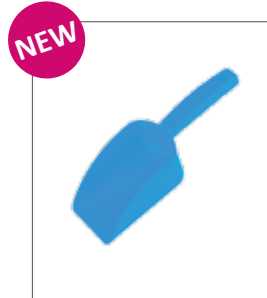

## Hygiene Scoops

Our scoops come in a range of sizes, capacities and colours, are made using food grade polypropylene and are all manufactured in the UK.

### 1L Plastic Measuring Jug JUG1

NOT AUTOCLAVABLE.  
**Ideal for:** Measuring liquid ingredients.  
Size: 140 x 120mm ø

### Seamless Hand Scoop SCOOP1

**Ideal for:** Moving small quantities of ingredients; food preparation areas.  
Size: 40 x 68 x 100mm (Overall 190mm)

### Seamless Hand Scoop SCOOP2

**Ideal for:** Moving ingredients; food preparation areas.  
Size: 60 x 110 x 145mm (Overall 245mm)

### Seamless Hand Scoop SCOOP3

**Ideal for:** Moving ingredients; food preparation areas.  
Size: 75 x 130 x 195mm (Overall 310mm)

### Seamless Hand Scoop SCOOP4

**Ideal for:** Moving ingredients; food preparation areas.  
Size: 90 x 170 x 260mm (Overall 375mm)

### Bowl Scoop SCOOP7

**Ideal for:** Moving liquids; food preparation areas.  
Size: 215mm ø

## Stainless Steel Scoops & Measuring Jugs

Our stainless steel jugs and scoops come in a range of sizes and capacities. They are ideal for measuring and moving ingredients.

**0.5L Stainless Steel Jug  
SSJUG1/2**

**Ideal for:** Measuring liquid ingredients; food preparation areas.  
Size: 120 x 110mm

**1L Stainless Steel Jug  
SSJUG1**

**Ideal for:** Measuring liquid ingredients; food preparation areas.  
Size: 155 x 150mm

**2L Stainless Steel Jug  
SSJUG2**

**Ideal for:** Measuring liquid ingredients; food preparation areas.  
Size: 170 x 200mm

**0.5L Stainless Steel Scoop  
SSSCOOP1/2**

**Ideal for:** Moving ingredients; food preparation areas.  
Size: 260 x 150 x 75mm

**1.2L Stainless Steel Scoop  
SSSCOOP1**

**Ideal for:** Moving ingredients; food preparation areas.  
Size: 330 x 195 x 100mm

**2L Stainless Steel Scoop  
SSSCOOP2**

**Ideal for:** Moving ingredients; food preparation areas.  
Size: 380 x 120mm

## Wall Hanging Systems

Store your Salmon® Hygiene Technology products safely and securely with our Aluminium and Plastic hanging systems.

- Colour coded hangers
- 515mm Aluminium Rails
- 515mm Plastic Rails
- Hooks are crack, shatter and tear resistant
- Customise your rail with hangers to suit your requirements
- New Ultra-Hygienic Hanger design minimises risk of bacteria growth

### Aluminium Hanging Rail HD6

With 5 x HOLD1 Hangers.

Size: 515 x 55mm

### Aluminium Hanging Rail HD7

With 3 x HOLD2 Hangers.

Size: 515 x 55mm

NEW

### Plastic Hanging Rail HD8

With 4 x HOLD1 Hangers.

Available 2015.

Size: 515mm x 55mm

NEW

### Plastic Hanging Rail HD9

With 3 x HOLD2 Hangers.

Available 2015.

Size: 515mm x 55mm

Please note: Some oily or acidic environments can have adverse effects on the rubber parts of the **HOLD1** and **HOLD2**. In such conditions please trial our holders prior to general use.

**NEW**

**Medium Hanger  
HOLD1**  
To fit **RAIL500** or **PR500**. Accepts 20-30mm  $\phi$ . Can be used individually.  
Size: 83 x 86mm

**NEW**

**Large Hanger  
HOLD2**  
To fit **RAIL500** or **PR500**. Accepts larger handles; 30-40mm  $\phi$ . Can be used individually.  
Size: 77 x 86mm

**NEW**

**Plastic Hanging Rail Spacers  
R/SPACE**  
Size: 53 x 32mm

**NEW**

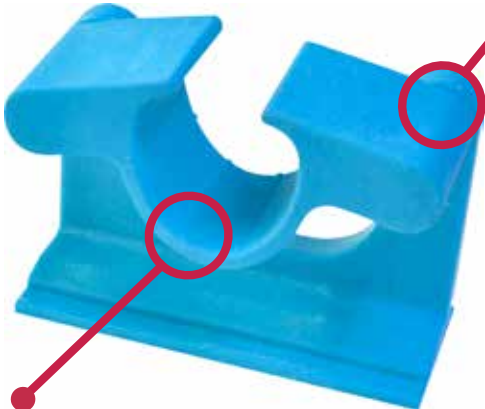

**Plastic Hanging Rail  
PR500**  
Available 2015.  
Size: 515mm x 55mm

**Plastic Hook  
HDHOOK1**  
To fit **RAIL500** or **PR500**. Can be used individually.  
Size: 55 x 70mm

**Aluminium Hanging Rail  
RAIL500**  
Complete with coloured end caps.  
Size: 515 x 55mm

Accommodates a vast array of products securely and hygienically

Holds are easily removable for cleaning and replacement

Please note: Some oily or acidic environments can have adverse effects on the rubber parts of the **HOLD1** and **HOLD2**. In such conditions please trial our holders prior to general use.

## Overmoulded Hanging System

Suitable for shovels, handles, scoops and most hand brushes.

- Four hanging spaces
- Polypropylene base is flexible, strong and shatter resistant
- Thermoplastic rubber surface gives superb grip
- Two raised keyhole slots allow easy removal for cleaning.

## Overmoulded Hanging System

### WLBR1

Ideal for: Stowing Salmon® Hygiene Technology cleaning tools; catering.  
Size: 206 x 75mm

## Stainless Steel Hanging System

Easy to clean and keep clean! The Stainless Steel hanger holds products securely, whilst its ergonomic design has been specifically created for use in hygiene-sensitive areas.

- Hygienic construction prevents dirt build-up
- Sits away from wall for easy access when cleaning
- Robust, attractive, professional design.

## Stainless Steel Hanging System

### SSHANG1

Ideal for: Storing cleaning tools hygienically.

Size: 75 x 310mm

Please note: Some oily or acidic environments can have adverse effects on the rubber parts of the **WLBR1**. In such conditions please trial our holders prior to general use.

### Colour Coded Storage Containers

Our versatile containers and bins are ideal for storing ingredients safely and securely.

- Available in up to 5 colours to aid HACCP compliance.

#### 31L Tough Inter-Stackable Bin RM7

**Ideal for:** Storing and stacking ingredients; food preparation areas.  
Size: 425 x 300mm

#### 18L Tough Inter-Stackable Bin RM4

**Ideal for:** Moving ingredients between food production areas.  
Size: 425 x 175mm

#### Lid for Inter-Stackable Bin RML

**Ideal for:** Sealing RM4/RM7; preventing contamination of contents.  
Size: 450mm ø

#### Single Dolly RMD1

**Ideal for:** Moving RM4, RM7 between production areas.  
Size: 430 x 430 x 185mm

#### 110L Hygiene Container with Lid PD110

**Ideal for:** Storing large amounts of ingredients; food preparation areas.  
Size: 650 x 500mm ø (Tapers to 440mm ø)

### Automatic Shoe Cover Dispenser

- Reduces the risk of contamination commonly found on footwear
- Shoe covers automatically fit over footwear
- Hands free application
- Covers fit shoes up to size 13 UK/48.5 EU
- Comes complete with 110 x standard **ADR2** covers
- Replacement standard and slip resistant covers available
- Overall size 210 x 410mm
- Ideal for general use in food production areas, hospitals and dairies.

#### Shoe Cover Dispenser Unit AD1

Complete with 110 shoe covers. Used for applying shoe covers before entering food production areas (excl, high risk areas).  
Size: 130 x 210 x 410mm

#### Pack of 100 Replacement Shoe Covers ADR2

#### Pack of 100 Slip Resistant Replacement Shoe Covers ADR3

### Boot Washer

Our lidded boot washer has a drainage plug and features an hour dial that can be set for the next chemical change. It is ideal for staff and visitors to use before entering hygienic environments.

The unit is comprised of a tough plastic trough; which comes in grey as standard, a stiff base brush and two softer side brushes. It can be filled as required with any standard disinfectant.

- Convenient hand holds for easy carrying
- Prominent hour dial to indicate next required chemical change
- Easily accessible drainage plug
- Brushes and handle available in six colours.

#### Boot Washer BW5

With coloured handle and brushes.

Size: 1150 x 550 x 250mm

## ENVIRONMENTAL AWARENESS

- 

HBC is committed to a policy, which is sympathetic to protecting and preserving our environment, not only with our products themselves, but also the way in which we manufacture and package them. HBC strives to minimise adverse environmental impact at all stages of production.
- 

All the vegetable fibres used in our brushes are sourced from third world countries thus supporting their local communities.
- 

HBC has a FSC® (Forest Stewardship Council®) Chain of Custody certification (TT-COC-001562) for wooden brush backs and other wooden products. This means that the FSC raw material used to produce these wooden parts can be traced back to an FSC certified forest. The non-FSC timber used by the company comes from managed forests or from suppliers with other sustainable timber schemes (such as the German PEFC™ scheme).
- 

We encourage our customers where possible to change from buying brushes with fitted handles to threaded handles. Packaging is much smaller, reducing transport costs and carbon emissions. See our Boxed to Go product line on pages 9 – 11 for more information on our environmentally friendly threaded wooden brushware.
- 

HBC strives to use a minimal amount of packaging materials and complies with all EPA (Environmental Protection Agency) packaging waste regulations. The weight of packaging per product is available on request.
- 

All plastic products manufactured by HBC comply with EPA (Environmental Protection Agency) recycling regulations.
- 

Energy and water consumption are a prime concern and air from our main extraction system is recycled back into the production building to reduce the loss of heat.
- 

All packaging received is recycled.
- 

The lighting in our main warehouse uses an ultra-efficient lighting system.

# BRUSH FILLING MATERIALS

Material	Country of origin	Quality			Characteristics	Used in
		Excellent	Good	Average		
BAHIA PIASSAVA (BASS)	Brazil	•			Very resilient, holds water, resists distortion, will not rot	Semi-stiff yard brooms and platform brooms
NATURAL BASSINE (PALMYRA)	India		•		Good resistance to friction and heat, may distort through use	Heavy duty brushes for warehouses and concrete floors, scrubbing brushes
DYED BASSINE (PALMYRA)	India		•		Same properties as natural bassine	As above
CANE (PALMYRA STALKS)	India			•	An attractive creamy colour, used to enhance the stiffness of Sherbro Piassava	Sherbro or Polypropylene mixtures for economy road and yard brooms
CANE & BASSINE MIXTURE	India		•		Low cost material, not recommended for wet conditions	Economy yard brooms
BROOM GRASS	Lesotho			•	Will endure wet conditions when mixed with other materials	Lighter domestic and yard brooms, mixed
GUMATI (ARENGA)	Indonesia	•			Very resilient, does not crush or rot floors, warehouse brushes	Sweeping dry concrete and smoother surfaces
SHERBRO PIASSAVA (BASS)	Sierra Leone		•		Will not crush or distort easily, good in wet or dry conditions	Farm, road sweeping and factory brooms, often mixed with other materials
NATURAL COCO FIBRE (COIR)	Sri Lanka			•	Average wearing and sweeping properties**	Economy household and industrial brooms
BLACK COCO FIBRE (DYED COCO)	Sri Lanka			•	Same properties as natural coco	As above
MEXICAN TAMPICO	Mexico	•			Elastic fibre, resistant to temperature change, water absorbent, non-electrostatic	Superior quality vehicle cleaning/wall brushes, scrubbing and wood polishing brushes
MEXICAN WHISK (RICE ROOT)	Mexico		•		Stiff and naturally crimped, tends to become brittle if not soaked in water ma	Grooming brushes
<b>VEGETABLE/SYNTHETIC MIXTURE</b>						
UNION MIXTURE	India		•		Polypropylene and bassine, very resilient, holds water	Sink, deck and scrubbing brushes
<b>ANIMAL FIBRES</b>						
BRISTLE	China	•			Highly durable and water resistant	Shoe polishing, grooming and paint brushes (soft), clothes and hair brushes
HORSE HAIR	Paraguay/China	•			Durable and resilient	Brushes for cleaning smooth floors and windows, cobweb brushes, shoe polishing
GOAT HAIR	China	•			Durable, resilient, very soft	High quality equestrian brushes
<b>SYNTHETIC MONOFILAMENTS</b>						
POLYPROPYLENE	UK/Germany/Spain	•			Very lightweight, can be used in hot water	Bass and platform brooms, household brushes
PVC	Italy		•		Very robust material, may 'flick' when in use	Bass and platform brooms, household brushes
NYLON	Germany	•			Very robust, withstands boiling water/ autoclaving depending on type	Dairy brushes and special application brushes
POLYESTER	Germany	•			Very robust, can be autoclaved at temperatures up to 134°C/275°F	Hygiene brooms and brushes

\*\* All of the natural coco used in our 'Salmon® Traditional Quality' products is unbleached as we disapprove of the sulphur bleaching process that is used only to give the fibre a more golden colour.

We are able to supply the fibres described above and also make special mixtures if required.

# YOUR 'HOW TO' GUIDE TO PRODUCT CARE & MAINTENANCE

It is essential to maintain your hygienic cleaning tools to prolong their use and to recognise when they need replacing.

## 'How To' Clean Your Hygienic Cleaning Tools

- Remove all visible dirt and any foreign objects using a Salmon® Hygiene Technology brush with stiff filaments
- Use a cleaning solution with a pH 5 or less. Alternatively, clean in an industrial dishwasher (82°C/180°F)
- Rinse with clean water
- If lime residue has formed on a tool, this can be removed by washing in a cleaning solution with a pH 5 or less
- If required, tools can be disinfected after washing with approved disinfectant. Salmon® Hygiene Technology products tolerate all approved disinfectants
- If a disinfectant is used, rinse products with clean water before using again, to ensure disinfectant residues are removed
- If required, most Salmon® Hygiene Technology products can be sterilised by autoclaving. Many products can be autoclaved at temperatures up to 134°C / 275°F. Please check product details in this catalogue or contact your distributor. After autoclaving the tool should be left to cool prior to use
- Place the tool to dry on a Salmon® Hygiene Technology wall hanging system (see pages 121-123)

## 'How To' Recognise When a Tool Needs Replacing

- When filaments are so entangled that particles can adhere to them
- When filaments are discoloured
- When the brush back or plastic moulding is scratched or badly marked
- When the handle is broken or bent
- When the filaments are worn excessively
- If there may be a risk to food hygiene

## 'How To' Store Your Cleaning Tools

- Store brushes and cleaning equipment away from surfaces
- Use a colour coded hanging system to ensure tools are safe, secure and will last longer
- Using a hanging system promotes swift air-drying, which reduces scope for bacterial growth
- Installing a shadow board will ensure any missing items are easily identifiable. See our 'Sales and Marketing Support' section on page 133 for more details

To get the most from your tools, never use them for inappropriate tasks, such as levers or mallets

# CHARTER FOR PROFESSIONAL HYGIENE CLEANING EQUIPMENT

## PHB Charter

The F.E.I.B.P. has responded to a new market requirement by introducing a Charter for Professional Hygiene Brushware. The Charter has been established so as to enable the purchasers of this type of product to be confident that they will be supplied with high quality professional brushware which comply with all existing hygiene regulations. The customers still have the responsibility of organising their own hygiene systems, but will be assured that if they purchase professional hygiene brushware from an F.E.I.B.P. registered manufacturer it will be fit for purpose.

We herewith inform you that the renewed PHB logo is officially registered as EU collective trademark under no. 010919132.

### 1. Definition for Hygiene Brushware

These are products from the brushware sector which are intended for use in any food business (which includes preparation, processing, manufacturing, packing, storing, transportation, distribution, handling or offering for sale or supply, see COUNCIL DIRECTIVE 93/43 ECC 14th June 1993) or other hygienically sensitive areas such as hospitals, etc. The products are characterised by the fact that they are constructed in such a way, and of such materials, that they will not, in themselves absorb bacteria or contaminate any food stuffs or sensitive areas during their normal use. The materials should be corrosion proof and non-toxic, and the products should be able to withstand sterilisation or disinfection by other processes, including chemical treatment.

### 2. Specifications of Brushes, Handles and Squeegees

#### 2.1 Brush Components

The brush components must be made of materials resistant to solvents, chemical cleaning agents and temperatures required for disinfection. The components must not contain Chlorine. Any additives/compounds or colourants must be food grade of a recognised standard, and must not contain lead, mercury or cadmium. No hollow or flagged fibres are to be allowed.

#### 2.2 Brush Filling Material Fixing

The brush filling material retention must be by means of either wire (which cannot be attacked or made brittle

by oxidation) and/or by means of epoxy resin, which is made up of food grade components of a recognised standard, or of fused construction.

#### 2.3 Handles

Handles must be manufactured from food grade stainless steel or fibreglass with a topcoat, or aluminium which is either anodised or coated with approved materials. All handle fittings (handgrips and threads) must be made from materials as those defined under "brush components".

#### 2.4 Squeegees

Squeegees for hygiene areas which use solid rubber or foamed rubber with minimum 95% closed cells in a double up construction, must be designed in such a way, that they can be cleaned, disinfected and inspected.

#### 2.5 Related Cleaning Equipment

Plastic hand scoops, hand scrapers, shovels, containers/bins, stainless steel hand scrapers and floor scrapers.

#### 2.6 Marking/Identification

All marking of the products must be carried out by the best technical and hygienic methods possible, prescribed or not.

#### Exclusions of Liability

Information contained in this or any other Hill Brush catalogue is provided in good faith to assist in the correct application of the products specified. The information provided is accurate to the best knowledge and belief of Hill Brush. The use and application of the information contained within the catalogue remains, at all times, the responsibility of the user who should ensure the suitability of the products for the intended application. Hill Brush accepts no liability whatsoever (except as otherwise provided by law) arising out of the misuse of the information provided. Specifications may be changed without notice.

# COLOUR CODING & HACCP EXPLAINED

The Salmon® Hygiene Technology range has been developed into a comprehensive collection to ensure the highest standards of cleanliness and hygiene can be maintained. All products with Salmon® Hygiene Technology are available in up to ten colours. Below you will find key information on the recognized principles of HACCP colour coding and the 5S system.

## Colour Coding Explained

- The use of colour coded cleaning tools within the food industry can assist greatly in reducing the risk of cross contamination and with the implementation of HACCP
- A methodical colour coded approach associates each product with a particular area, promoting inter-departmental and / or food-type segregation
- The majority of our hygiene and food safety ranges are colour coded, with up to ten vibrant, easily identifiable colours to choose from.

## HACCP Explained

Developed by the US Department of Agriculture, the Hazard Analysis and Critical Control Points (HACCP) initiative was created to assist food processors and food service companies in eliminating food safety hazards by identifying Critical Control Points.

The seven key principles of HACCP are:

1. Conduct an analysis of hazards
2. Determine the Critical Control Points
3. Establish critical limits
4. Set up a monitoring system
5. Establish a procedure for corrective action
6. Establish procedures by which to verify the effectiveness of the HACCP plan
7. Maintain thorough records.

## The 5S System Explained

A simple process to create a safer, cleaner and well-organised workplace, through order and standardisation. These principles work alongside HACCP guidelines to improve efficiency and profitability.

1. **Sort** – establish which tools are needed in which area
2. **Set in order** – organize into designated colour coded zones
3. **Shine** – Carry out regular cleaning and maintenance
4. **Standardise** – Set out cleaning and maintenance procedures
5. **Sustain** – Ensure standards are followed.

## How Salmon® Hygiene Technology Can Help

- Eliminate cross-contamination
- Colour coded products help segregate food types or departments
- Prioritise and control potential hazards
- Internationally recognized
- Used at all stages of food production
- Trading benefits, through improved customer and consumer confidence
- Can be aligned with other Management and QA systems.

# SALES AND MARKETING SUPPORT

## Graphic Design

Our experienced in-house design team has access to the latest technology and can produce high-quality flyers, leaflets and promotional material. If you would like these personalised with your contact details and company logo, we will be happy to help.

## Catalogues

With the introduction of our main annual catalogue and the complimenting hygiene catalogue, our professional, modern product literature gives you easy access to everything we have to offer.

## Shadow Boards

We have created shadow images for all of our products to assist you with workplace control. Contact us to discuss your requirements or for assistance with template design and guidance on materials.

## Display Stands

Whether you're taking part in a trade show or need something to demonstrate in your showroom, our display stands will compliment any area. Easy to assemble and built to last, their quality metal construction and modern white design, provides the ideal backdrop for our products. Simply add our quality traditional wooden brushware or colour coded hygiene products to enhance your marketing space.

## Roller Banners

Eye-catching artwork is a great way to invite visitors to your display stand. Our roller banners contain high quality photography and key unique selling points, for an informative yet attractive marketing solution.

## Branding Guidelines

When adding our products to your website or product literature, it's important to have clear guidelines to follow. Our comprehensive branding guidelines provide logos, colour palette and font information to ensure consistent brand awareness.

## Press Pack

We have introduced a 'Press Pack' area within the Media section of the Hill Brush website. This contains useful product literature including flyers, leaflets and other promotional material. In addition, you can download the branding guidelines and have full access to product shadow images and brand logos. In order to access this exciting facility, you will need to login to the website. For more details about logging in, or for more information on our website contact us by phone on +44 (0) 1747 860494 or e-mail [info@hillbrush.com](mailto:info@hillbrush.com)

## Product Training

We offer comprehensive training for your team, either at your offices or ours. Ask one of our Customer Services Advisors for more information and guidance for how to be successful with promoting our products.

## Documentation

Our products comply with all necessary industry regulations, giving you peace of mind that the tools you are using are fit for purpose. Visit our website, [www.hillbrush.com](http://www.hillbrush.com) to view and download individual product data sheets, our declaration of compliance document and certificates

**Acrylic Resin-Set DRS®  
Demonstration Brush  
B1827BRES**

Size: 35 x 20mm

**Acrylic Total MDX  
Demonstration Brush  
B1831RESMDX**

Size: 35 x 20mm

**Hygiene Demonstration Kit

## PRINTING, BRANDING & LABELLING

Type of marking	Set Up Cost	Min Order	Marked During Production Code
Hot brand wood (with available type)	NO	500	
Hot brand wood (with customer's brand)	YES	500	
Pad printing wood (single colour)	YES	400	PRINT/WSK
Label 76mm x 64mm	NO	400	LABEL76/64
Label 48mm x 24mm (bar code)	NO	400	LABEL48/24

Many of the items produced can be marked by hot branding, printing or labelling. There is a one-off charge for the production of special branding and printing plates, but hot branded names and numbers made up from available type blocks do not attract a set up charge.

The maximum brand area is 90mm x 65mm, and the maximum print area is 70mm x 70mm. Four colour printing is available.

The minimum order quantities shown above refer to the number of a particular shaped product base to be marked. This number could be made up of different products manufactured with the same

shaped base, but with a minimum quantity per product of 100.

Most products are manufactured in large batches on a three month cycle, therefore customers requiring products to be marked during manufacture should ensure that orders are placed well in advance.

Most wooden stocks are made with hardwood from professionally managed estates, where timber is felled under Licence and replanted.

Salmon® Products has an FSC chain of custody accreditation (TT/COC/001562) and is able to make FSC timber products and brushes to order.

# INDEX OF PRODUCTS

Anti-Microbial	76–78	– Aluminium	58, 70, 104–105	Sink Plungers	49
Bag Hoop	57	– Connectors	32, 70, 106	Sink Brushes	14, 49, 97
Banister Brushes		– Fibreglass	70, 105	Sockets	32
– Wooden	15, 24, 29	– Fitted	33–34	Socketed Brooms	14, 18, 20, 22, 28
– Plastic	47	– Hygiene	78, 104–105	Sponge Mop	62
Block Brush	39	– One Piece Plastic	78, 105	Sponges	50, 70
Boot Remover	16	– Stainless Steel	105	Squeegees	
Boot Washer	125	– Telescopic	70, 73	– Wooden	64
Bootwipers	16	– Waterflow	69, 107	– Metal	64–65
Bottle Brushes	45	– Wooden	9, 30–31	– Hygiene	78, 98–100
Boxed to Go	7–9	Hangers & Accessories	121–123	Stays	32
Bucket Brushes	15	Hazard Signs	66	Stiff/Soft Brushes	97
Buckets		Hearth Equipment	9	Storage Containers	124
– General Purpose	63	High/Low Brushes	94	Strip Brushes	93
– Hygiene	112–113	Household Products	40–42	Sweeping Brooms/Brushes	
– Stainless Steel	112	Hygiene Technology	74–125	– Wooden	12, 20, 27
Bulk Tank Brushes	31, 106	Industrial Wooden Brushes	17–24	– Plastic	53
Cassette Squeegee	100	Jugs	119–120	– Hygiene	77, 82–83, 94–95, 97
Clothes Brushes	41	Kentucky Mops	61, 111	Swivel Scrub	95
Cloths	50	Kneeling Mat	42	Tar Spreading Brushes	24
Cobweb Brushes	52, 73	Lavatory Brushes	48	Teapot Spout Brushes	44
Commercial Cleaning	43–73	Laundry Brushes	14	Toilet Brushes	48
Complete Brushes	33, 34, 67	Litterpickers	56	Trade Wooden Brushes	25–29
Corn Broom	41	Lobby Dustpans & Brushes	55	Traditional Brushware	6–41
Curb & Gutter Brush	28	Metal Detectable Items	84–89	Tray Tidy	42
Deck Scrubs		Mops		Tube Brushes	44–46, 102
– Wooden	11, 18, 26	– General Purpose	59–62	Twisted-in-Wire Brushes	101, 103
– Hygiene	77, 82, 94, 97	– Hygiene	111	Ultimate Range	76–89
Decorating Equipment	35–19	Nail Brushes		Ultra-Hygienic Squeegee	98–99
Detail Brush	91	– Wooden	41	Upholstery Brushes	42
Dish Washing Brushes	49, 97	– Hygiene	77–80, 85, 92	Utility Brushes	80, 91
Display Stand	134	Niche Brushes	80, 91	Venetian Blind Duster	52
Drain Brush	48	Paddles	116	Wall Hanging Systems	78, 121–123
Dry Mops	59–60	Paint Brushes	35–39	Warning Signs	66
Dusters	51	Pastry Brushes	42, 91	Waterflow & Accessories	69, 70
Dustpans		Personal Protective Equipment	125	Wet Mops	61–62
– General Purpose	54–55	Plastic Tube Brushes	102	Window Brushes	22
– Hygiene	78, 119	Platform Brooms	11–12, 18–19, 26	Window Cleaning	71–73
Finest Wooden Brushes	10–16	Premier Brushware	96, 97	Wire Brooms	22
Flat Top Brooms	13, 22, 27	Professional Brushware	90–95	Wire Brushes	
Flexi Scrub	53, 92	Radiator Brush	41	– Wooden	23, 29
Floor Pads	58	Resin-Set DRS®	79–83	– Hygiene	81, 93
Floor Scrub	81, 93	Sash Brushes	39	Yard Brooms	13, 20–21, 28
Flue Brushes	47	Scissor Mop	59		
General Purpose Brushes		Scoops	78, 87, 119–120		
– Wooden	14, 24	Scrapers			
– Hygiene	91	– Decorating	39		
Glazing Brushes	91	– Long Handled, Metal	65		
Grout Scrub	95	– Hygiene	78, 87, 114–115		
Guarded Machine Brush	80	Shoe Brushes	41		
Hygiene Hand Brushes	77, 80, 85, 86, 91–92, 97	Shoe Covers	125
